

Exclusion Policy

We operate an inclusive Childminding setting, where all children are welcome regardless of their race, religion, culture, sex, ability or disability.

There are however certain occasions when it may be necessary to ask a parent to not bring in their child to the setting for a short period of time. These reasons include: -

- If your child is ill
- If your child has a highly infectious condition such as impetigo, hand foot and mouth and conjunctivitis. This infection needs to be cleared up before you come back into the setting.
- If your child has a notifiable disease
- If your child has had a bout of sickness or diarrhoea, please do not bring them in before 48 hours after the last episode
- If a child is on anti-biotics they haven't taken before, and it is within the first three days of the course (in case of an allergic reaction)
- If your child has headlice, this needs to be treated and they are clear before coming to the setting
